

Heart of Texas Interpreters for the Deaf

April 13 Workshop

Show Me, Don't Tell Me! ²⁰¹⁹ Sharpening Your Visual Language Tools

.6 CEUs
BEI/RID

9am - 4pm

ASL employs a wide variety of linguistic features that take advantage of its unique visual framework. One of the biggest challenges for interpreters is knowing when and how to apply these visual linguistic “tools.” We’ve learned and practiced visual linguistic features of ASL, like use of space and role shifting, but we often struggle to employ these in our interpreting. Participants will have the opportunity to “sharpen” their visual language tools!

Lori Wrzesinski

BEI IV, Court, NIC Advanced

Senior Lecturer at Baylor University Department of Communication Sciences and Disorders; Lori was instrumental in establishing ASL 1-4 courses at BU, later adding a minor in ASL/English interpreting and a major in Deaf Education.

Marnie Abrahams

BEI Advanced

Senior Lecturer at Baylor University teaching ASL 1 - 4, Deaf Culture, and Interpreting for the past seven years. After graduate school, Marnie traveled for one year with the National Theatre of the Deaf, after which she came back to Waco and began interpreting and later teaching.
