

Visual Techniques for Expressive Interpreting and Voicing

Saturday February 21, 2009

Visual Techniques for Expressive Interpreting and Voicing

Presented By Michael Bothel

All proceeds and donations for this workshop benefit the **TSID Trustee's scholarship programs.**

Visual Techniques for Expressive Interpreting and Voicing is designed for the new and intermediate interpreter. This workshop is not for the stuffy and faint of heart. This workshop will challenge your thinking while keeping the environment fun and encouraging.

Participants will have the opportunity to apply a mixture of 'hands up' and non-signing activities in a very supportive and encouraging environment.

Workshop attendees, working in groups, will be challenged with visual description activities (both expressively and voicing), techniques for preparing for interpreting assignments, word choice activities and much much more.

Tarrant County College
NW Campus: WFAB 1105
4801 Marine Creek Pkwy,
Fort Worth, TX 76179
Saturday February 21, 2009
9:00 AM—4:00 PM
.6 CEU—Requested
